

DAYMAP

Learning Management System

Daymap is an easy-to-use system that allows parents to access student details via the Daymap app.

At present, parents can access school communication, student performance interviews, timetable and attendance.

Step 1: Download the Daymap Mobile app via your app store

Apple App Store

<https://apps.apple.com/au/app/id1494799850>

Google Play Store

<https://play.google.com/store/apps/details?id=net.daymap.mobile>

Step 2: Enter your Email Address

Enter the email registered with the school into the 'Username' section. Then select 'Forgot your password?'. You will then receive an email with a link to reset a password. (This link expires after 24 hours, be sure to check your Junk email also). Once you have submitted a password you can log on to the app with your email address as your username and use the new password you made through the link.

Step 3: Access the Daymap App

Subsequent uses of Daymap can then be made by tapping the Daymap app icon in your list of apps.

Troubleshooting

Daymap does not allow both parents to have the same email address registered with the school. If both parents have the same email address, it is advised that the school be contacted to remove an email address for one parent or provide an alternative email address.

If you have any questions or ongoing issues with Daymap please contact administration to request a Daymap reset. This will allow you to follow the prompts again to create an account.
