School based apprenticeship and traineeship (SATS)

School-based apprenticeships and traineeships help young people to go places... whether that's a full-time job, a trade career, university, TAFE or other training.

The workplace skills and confidence they gain during their school-based apprenticeship or traineeship provide a solid foundation for any career pathway.

Nationally recognised qualifications

Our qualifications are nationally recognised and comply with the Australian Qualifications Framework.

All certificate courses have been identified by the Australian Government and local Sunshine Coast Region as critical first steps in supporting youth in the current National Workforce Development Strategy.

Australian
Qualifications
Framework

Benefits for students

Some students complete traineeships while they're at school, which means they leave school with a QCE and a nationally recognised vocational certificate. Others go on to finish their apprenticeship or traineeship either full-time or part-time after they have left school.

- More flexibility and variety.
- A head start into a career.
- Opportunity to earn and learn.
- Get the edge over other school leavers.
- Be a step ahead of the competition when applying for jobs.
- Try a career path while still at school.

Next steps

Steps to becoming a School Based Apprentice or Trainee at Maroochydore State High School:

1. Speak with the Vocational Education Liaison Officer.
2. Research the apprenticeship or traineeship and obtain work experience in this industry.
3. Once an employer is found, a training contract and education, training and employment schedule is completed.
4. Start your apprenticeship or traineeship.

Vocational EDUCATION AND TRAINING

INVESTING IN OUR STUDENTS:

The Sunshine Coast Council has outlined a 20-year plan to build a strong, high-value economy for our region, with a focus on growing investment, encouraging innovation, and supporting entrepreneurship to achieve its goals by 2033.

A key part of this vision is the development of seven high-value, high-growth industries identified as critical to driving economic success and attracting future investment. These industries are at the forefront of innovation and represent some of the fastest-growing sectors in Australia.

At Maroochydore State High School, our Vocational Education and Training (VET) programs are closely aligned with these priority industries, helping students develop the skills and experience needed to take advantage of emerging career opportunities.

By connecting education with industry demand, we're preparing students to thrive in the evolving workforce - right here on the Sunshine Coast and beyond.

TRANSITION TO SUCCESS:

Students commencing nationally recognised industry qualifications while at school are more successfully able to transition to pathways such as apprenticeships and traineeships, full-time employment or further training/ study once school is completed.

FEATURES OF OUR PROGRAMS:

- Relevant study streams to maximise employment opportunities in leading Sunshine Coast industries.
- Positive education studies, activities and learning experiences both at school and in the workplace.
- Student-centred programs dedicated to enhancing specific industry knowledge, practical and personal skills.
- Courses delivered at a pace that ensures school attendance, engagement and confidence.
