

Vocational Education and Training

SCHOOL BASED APPRENTICESHIP AND TRAINEESHIP (SATs)

School-based apprenticeships and traineeships help young people to go places... whether that's a full-time job, a trade career, university, TAFE or other training.

The workplace skills and confidence they gain during their school-based apprenticeship or traineeship provide a solid foundation for any career pathway.

Benefits for students

Some students complete traineeships while they're at school, which means they leave school with a QCE and a nationally recognised vocational certificate. Others go on to finish their apprenticeship or traineeship either full-time or part-time after they have left school.

- More flexibility and variety.
- A head start into a career.
- Opportunity to earn and learn.
- Get the edge over other school leavers.
- Be a step ahead of the competition when applying for jobs.
- Try a career path while still at school.

Next steps

Steps to becoming a School Based Apprentice or Trainee at Maroochydore State High School:

1. Speak with the Vocational Education Liaison Officer.
2. Research the apprenticeship or traineeship and obtain work experience in this industry.
3. Once an employer is found, a training contract and education, training and employment schedule is completed.
4. Start your apprenticeship or traineeship.

Vocational

EDUCATION AND TRAINING

Our courses:

Our qualifications are nationally recognised and comply with the Australian Qualifications Framework.

All certificate courses have been identified by the Australian Government and local Sunshine Coast Region as critical first steps in supporting youth in the current National Workforce Development Strategy.

Students commencing nationally recognised industry qualifications while at school are more successfully able to transition to pathways such as apprenticeships and traineeships, full-time employment or further training/study once school is completed.

Students completing Vocational Education study will be required to study Maths and English in addition to their selected industry courses.

Students may be also required to participate in work placement related to their chosen industry area. Students will continue working toward obtaining their Queensland Certificate of Education (QCE) by the end of Year 12.

Features:

- Relevant study streams to maximise employment opportunities in leading Sunshine Coast industries.
- Positive education studies, activities and learning experiences both at school and in the workplace.
- Student-centred programs dedicated to enhancing specific industry knowledge, practical and personal skills.
- Courses delivered at a pace that ensures school attendance, engagement and confidence.

All information is correct at time of printing and may be subject to change.
